

## Dessau Soprin

Dessau Soprin is a civil engineering company, well recognized not only in Quebec, but also worldwide. Their “know-how” allows them to organize, conceive, construct and administer the ensemble of their projects as much for their private clients as for their public clients.

### OPPORTUNITY

- To make calculus worksheets accessible for all departments.

### SOLUTION

- Mathcad. Dessau Soprin has chosen this solution for its calculus worksheets, always using Excel for the charts. This two solutions’ integration is a winning formula for them.

### RESULTS

- Considerable time saving.
- Neat and clear calculus worksheets, all departments understand every calculus worksheet produced.
