

FOR IMMEDIATE RELEASE

## **BRT Solutions Further Expands PTC Operations in Canada**

### **Now offering full services in British Columbia**

Montreal, QC, July, 2006 – BRT-Solutions, a leading provider of MCAD and PLM products and services in North America, (BRT) is pleased to announce today that it has expanded their PTC Services and operations to include British Columbia – making BRT the largest, most successful and experienced solutions providers in Canada.

This new office will offer the full range of Product Lifecycle Management (PLM) solutions, MCAD services, and CAD/CAM training that have made BRT the preferred service provider for many of Canada's manufacturers and developers. Dan Gravel ([dgravel@brt-solutions.com](mailto:dgravel@brt-solutions.com)) will be heading up the BRT team in British Columbia and will be coordinating all services from his office in Kelowna, BC.

#### **About BRT**

Since 1996, BRT has been helping companies of all sizes to identify and implement solutions to minimize product development time, reduce costs and create superior products. With offices across Canada, BRT has the manpower and the expertises to deliver the competitive edge manufacturing companies are looking for. BRT offers its customers a solid team of engineers with years of experience with the PTC product line.
